

EEMEA Trauma Case Controversies Meeting

6-7 April, 2020 | Selzach, Switzerland

Faculty:

TBD

Overview:

This highly interactive course has been specifically designed to stimulate debates based on experiences from large trauma centres that have high volume of surgeries and extreme cases.

The course will include peer to peer case debates regarding different treatment approaches used around the region and also the Stryker Trauma portfolio overview and how that fits in with the treatment options.

Didactic Presentations, Stryker site visitation

Delegate Profile:

Senior trauma surgeons with high level experience

Product Focus

SOMA Design, AxSos 3, Pelvis Pro, Hoffman, Variax 2, T2 Alpha, Gamma 3
