Trauma Stretcher

Stryker’s Trauma Stretcher provides a secure platform for assessing and tending to critically injured and immobile patients. Its innovative design allows for **full-length X-ray capability without having to transfer or reposition** the patient.

---

**Slide-out cassette tray** allows you to capture precise X-ray images without moving the patient.

**90-degree backrest** provides the versatility to take images from a variety of positions.

**Multiple bumper color options** allow you to customize the stretcher for identification purposes.

---

**Full-length X-ray capability**
- Securely-mounted, lateral **C-spine cassette holder**
- Precisely position **slide-out tray** for supreme imaging results
- **90-degree backrest** helps facilitate imaging access
Trauma Stretcher
