Advanced Cranio-Maxillofacial Forum

Overview

Specialists in oral and maxillofacial surgery, otolaryngology-head & neck surgery, plastic surgery and neurosurgery will find this course provides an update in the surgical management of craniomaxillofacial trauma, congenital abnormalities and tumors. Faculty will address applications of fixation including plating and use of cement, and techniques for treating tumors. A session will be devoted to the prevention and management of complications and future reconstructive methods. Panel discussion and patient cases will complement each session, providing a springboard for lively debate and audience question & answer.

Target Audience

This one day continuing medical education event is designed for physicians specializing in oral and maxillofacial surgery, otolaryngology-head & neck surgery, plastic surgery and neurosurgery who desire an update in the surgical techniques and technologies available to improve patient outcomes.

Objectives

Upon completion of this course, the physician should be able to:

1. Assess state of the art surgical reconstructive techniques and technologies in the treatment of craniofacial trauma, congenital abnormalities, and head and neck tumors.
2. Evaluate clinical studies and patient outcomes associated with craniofacial reconstruction.
3. Delineate steps to prevent and manage intra- and post-operative complications.
4. Relate how reconstructive techniques and device applications are relevant to your patient population and may improve patient outcomes.
5. Discuss future surgical and technological applications for managing craniomaxillofacial pathology.

Accreditation

Pfiedler Enterprises is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Credit Designation

Pfiedler Enterprises designates this educational activity for a maximum of **7.5 AMA PRA Category 1 Credit(s)**[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.
