ESSx Microdebrider

5290-601-200

- **Max RPM in oscillation mode (standard):** 5,000 RPM
- **Straight through suction:** Helps ensure less clogging
- **Improved patented flush feature:** Surgeon can manually unplug hand piece using its own irrigation out flow allowing for quicker removal of clogs and decreased OR time
- **Integrated scope cleaning:** Cleans the endoscope allowing for less manual cleaning during the case
- All straight blades are irrigated through the entire channel including the tip
- Preserves mucous membranes
- Improved ergonomics and balance
- Increased cutting efficiency

Precision Cutters
