

Confidence begins with a

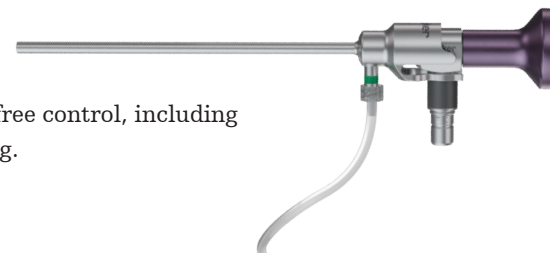

clear view

Pair Hydro irrigation system with Stryker's 1788 Visualization Platform, designed to navigate small cavities and better distinguish between shades of red.²

Stryker offers 3.1mm and 4.0mm Precision 4K Sinusscopes in multiple viewing angles and working lengths, paired with reusable HydroFlow metal sheaths — a sustainable option with potential cost savings. The sheath's electropolished distal tip is designed to minimize water beading and reduce light reflections for optimal visualization, while adding less than 1mm to the scope diameter, preserving working space.²

Plus, when paired with RISE, you can keep focus on visualization with hands-free control, including voice-activated scope cleaning.

Visualization, enhanced

Contact your Stryker representative for more information on how to order Hydro irrigation system and start seeing more clearly today.

Description	Part number
Hydro irrigation system console	5027-500-000
Hydro irrigation system foot pedal	5027-500-100
Hydro irrigation system pole mount	5027-500-200
Hydro irrigation system irrigation cassettes (qty 10)	5027-500-400

ProCare

You focus on what matters most; we have your equipment covered.

Our flexible service solutions help you maximize uptime. As the original equipment manufacturer, we offer the best choice for proprietary parts and expert repairs.

Flex Financial

Get the equipment you need now and keep your cash for emergencies.

We offer numerous payment structures that can be customized to meet budgetary needs and help to build long-term financial stability.

stryker

Clear.

Clean. Confident.

Introducing Hydro irrigation system, Stryker's sinuscope cleaning solution.

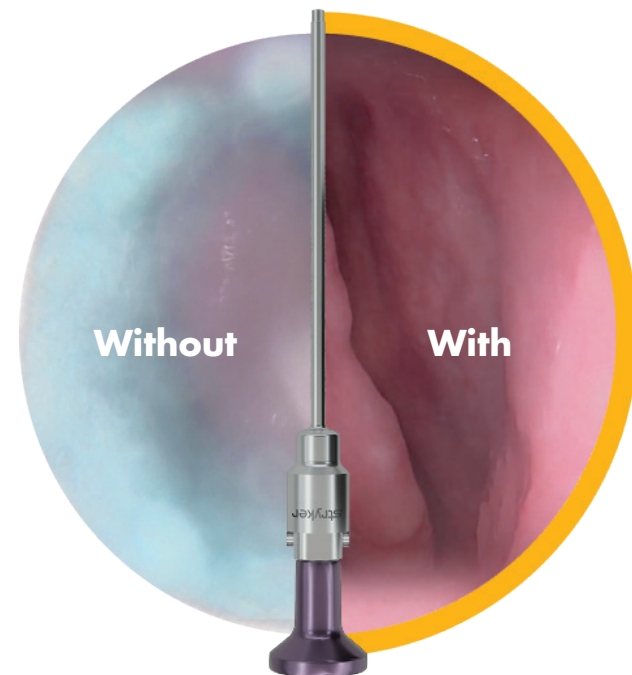

We're redefining what clean means for ENTs and Neurosurgeons.

The crystal-clear difference

In the OR, every second of clarity counts. Inefficiencies like complex setups, unresponsive systems or repeated steps can impact visualization and slow momentum.

That's why Hydro irrigation system was created — to remove the obstacles between you and a clear view. With simple setup, intuitive operation and responsive visualization that restores clarity in seconds, Hydro irrigation system helps you focus where it matters most.

Your skill deserves nothing less than complete clarity.

Hydro irrigation system

Hydro irrigation system is designed to simplify sinuscope cleaning during ENT and Neuro procedures. Its intuitive setup and one-tap cleaning cycle restores clarity in seconds, reducing delays while maintaining visualization. The universal connection can work with compatible, existing OR systems.¹

Optimal versatility

Engineered for adaptability, Hydro irrigation system's universal connection* makes integration simple, giving you the freedom to work your way.

*Refer to IFU for scope compatibility.

Elevated performance

Never lose sight. Hydro irrigation system's responsive, one-tap cleaning cycle restores clear visualization in seconds.¹

Lens-to-retraction irrigation time

<3.0
seconds¹

Improved efficiency*

Connected with one click, Hydro irrigation system's irrigation cassette makes setup effortless, and an intuitive interface simplifies the complex, helping teams enhance OR workflows.¹

*Compared to manual endoscope cleaning
