

# SAP Navigation

## Walkthrough on how to login and navigate the SAP Business Network

Description	Screenshot
<p><b>Logging in</b></p> <p>To begin navigating the SAP Business Network now that you have a username, you will begin by typing in the link: <a href="http://supplier.ariba.com">supplier.ariba.com</a>.</p> <p>This will bring you to the page shown on the right.</p> <p>Here you will type in your username and password then click login to be taken to the home page of your SAP Business Network Supplier Account</p>	

**Description**

**SAP Business Network Homepage**

After you have successfully logged in you will be brought to the homepage

At the top of the screen under the SAP logo you will see the tabs section, depending on the type of access you have this may look different based on the permissions provided to you by your account administrator.

**Enablement:** Outlines specific tasks you need to complete for specific customers

**Workbench:** Allows you to customize how your overview section in the middle of the homepage is configured

**Planning:** Forecast, Planning Collaboration, and Sales Reports

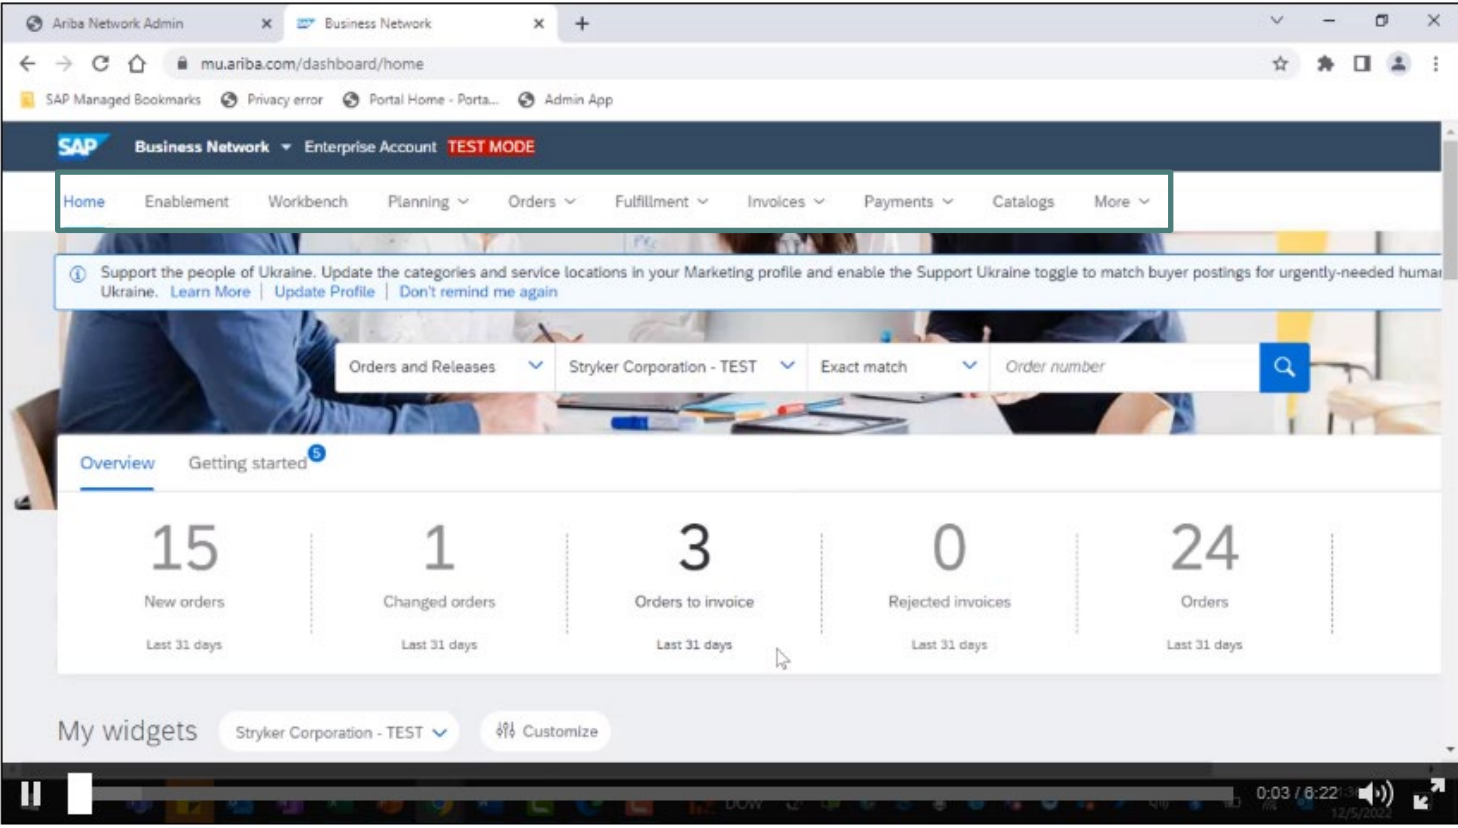

**Orders:** Review the purchase orders within your account

**Fulfillment:** Any documents that you have sent against your POs to your customers

**Invoice:** Credit and Debit memos, reference any invoices submitted already

The top right of the screen will have your initials where you can see information about your account and your company profile.
