

# Focus

## on the continuum of care

from first medical contact  
to hospital care

**It takes a system  
to save a patient**

- Manage setup options and update device software across an entire fleet
- View device readiness and receive alerts to changes in device readiness

View device readiness with  
**LIFENET Asset**

- Acquire a 12-lead ECG in diagnostic quality and send it from the LIFEPAK® 15 monitor/defibrillator through LIFENET® System

12-lead ECG acquired with the  
**LIFEPAK® 15 monitor/defibrillator**

Comprehensive post-event review on  
**CODE-STAT™ Data Review Software**

Cath lab prepared for the incoming patient  
**LIFENET System**

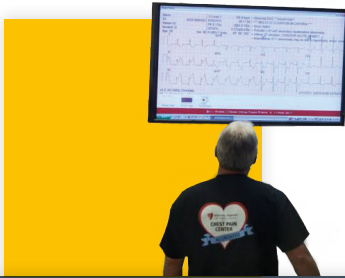

- Quick access to data for fast, targeted feedback
- Data review (ECG, trendings, CPR metrics)
- Comprehensive CPR reports
- System-wide data review

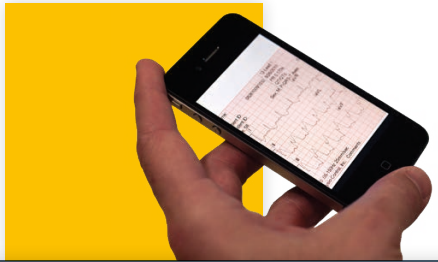

- STEMI protocol activated
- Helps reduce time from first medical contact to cath lab

- Hospital staff receives a notification on their LIFENET Alert
- View diagnostic quality 12-lead ECGs
- Able to activate a STEMI protocol
- Can request a remote consult

- Allows clinicians to perform remote consults and provide decision support
- Enables rapid response to emergent patient data
- Designed for increased clinical efficiency

Automatic alert sent to  
**LIFENET Alert**

Real time consulting via  
**LIFENET Consult**

Transfer to the hospital  
**LIFEPAK 15**

Automated activation of a  
STEMI protocol via  
**LIFENET OnePush**

- Receives the STEMI recognition message and take care of patient transfer

- Contacts all necessary personnel at once
- Email, text or LIFENET Alert notification of protocol activation
- Tied to a 12-lead report

Physio-Control is now part of Stryker.
