Bari10A
Bariatric Bed

Large capacity patient care
A practical solution for better patient care and comfort for all patients. Bari10A can be used as a standard hospital bed, but can easily expand to accommodate your heaviest patients. Easy-to-use expansion and retraction with color-coded levers expands 6 inches on each side. Centrally located fifth wheel improves maneuverability and steering.

Easy-to-use expansion and retraction with color-coded levers.

Made with heavy-gage, tubular steel, the optional bariatric patient helper adds to patient dignity by allowing independent patient repositioning.

A center-mounted fifth wheel provides an additional pivot point to turn the bed in a tighter arc. The fifth wheel retracts to allow unobstructed space for equipment furniture.

Overall aesthetic that allows the patient the dignity of a standard hospital bed look.

BackSmart expansion with color coded levers allow the bed to easily expand and retract to accommodate patients of all sizes.

Centrally-located fifth wheel adds an additional pivot point, improving maneuverability and steering.

Patient helper provides a BackSmart solution for patient repositioning.

True 1,050 pound safe working load.
## Standard features
- 1050 lb. safe working load
- Foot end controls with patient lockouts
- Fully articulated mattress support platform with independent back and knee movement, up/down adjustments, Trendelenburg and Reverse Trendelenburg positioning
