Designed to meet the healthcare industry’s urgent and growing need for patient platforms during the current COVID-19 pandemic, our limited-release Emergency Relief Bed helps emergency responders and caregivers move and position patients efficiently.

Our Emergency Relief Bed is a low-cost, readily available solution intended to quickly serve those on the front lines of the COVID-19 crisis – ranging from triage centers and pop-up areas of care, to the emergency department, and all in-patient general hospital departments.

It features a 30-degree Head of Bed angle to accommodate patients in respiratory distress, including vented patients. It also features low height, a 6” thick mattress, and an attached IV pole.

**Emergency Relief Bed Specifications**

- **Manufacturing target**: 10,000 beds per week
- **30° Head of Bed**: Accommodates vented patients
- **6” Thick surface**: Included
