Prime TC®
Transport Chair

Patient Transport Redefined.
For over 70 years, Stryker has been a partner in patient transport for hospitals and health systems around the world. After a sudden illness left him paralyzed from the chest down, world-renowned architect and designer Michael Graves sought out the Medical division of Stryker to form a strategic partnership. The goal of this partnership was to improve the healing environment for both patients and caregivers.

In addition to intense collaborative research between Stryker and the Michael Graves Design Group, Michael offered his firsthand perspective on the functionality and aesthetics lacking in the standard wheelchair – a chair that has only seen about a half-dozen major improvements since 1933.

Through this collaboration, patient perspective has been married with innovation and design in the Prime TC Transport Chair. Together, Stryker and the Michael Graves Design Group are improving the patient journey through this simple, safe and reliable solution to seated patient transport and, by doing so, are elevating the perception of organizations’ quality and standard of care.
Positive Experience, Positive Outcomes

In addition to patient and caregiver safety, the patient experience is critical to the success of your organization. The Prime TC Transport Chair is designed to help reduce the risk of adverse events like patient falls and infection, while enhancing the patient experience, all in an effort to improve your reimbursements. The Prime TC Transport Chair continues Stryker’s legacy of quality and innovation, which is backed by an unprecedented 3-year warranty. To further protect your investment, consider a ProCare® Agreement that will help ensure your fleet is always running at optimal performance.

Space-saving, Theft-resistant Design

The Prime TC Transport Chair helps ensure that, while the medical design allows you to save valuable space throughout your facility.

Comforting Aesthetics

Designers, like Michael Graves, understand that a clean, healing environment can have a significant impact on the healing process. The same sensibility is applied to the visually appealing Prime TC Transport Chair. The open and welcoming design visually communicates cleanliness, healing and an enhanced level of care. The Prime TC Transport Chair also feels right at home with other medical equipment and furniture.

Quality-built for the Journey Ahead

When it comes to the patient experience, details matter. That’s why every innovation on the Prime TC Transport Chair is designed to create a comfortable, welcoming and safe environment that looks, feels and functions best for your patients and caregivers. The Prime TC Transport Chair has tamper-resistant, theft-resistant hardware and an upright, anti-tip design to help prevent accidents. The Prime TC Transport Chair is also equipped with a quality-built, smooth rolling seat that offers additional patient comfort.

“Since I became paralyzed, I spent a lot of time in hospitals and rehab centers … I immediately gained a new perspective. I knew great design could improve healthcare experiences and healing outcomes.”

28.3" (71.8 cm)

72" (182.9 cm)

Big Wheel® Maneuverability

Utilizes technology from Stryker’s latest in motion control to deliver near-instantaneous steering and tight turns. No more juggling chairs in the hallways.

Optimal Leg Support

Molded plastic, seamless design and powder-coated steel eliminate fabric rips and reduce the risk of rust that can be difficult to clean and often harbor infectious bacteria. A simple, power-washable frame makes cleaning quick and easy.*

Flip-up Footrests

Remain in an upright position to provide a clear path of patient ingress and egress in tight spaces. Designed with caregivers of virtually all heights in mind, footrests can be easily lowered and locked into place for patient safety and to prevent accidental footrest disengagement. The Prime TC Transport Chair is designed to accommodate caregivers of all heights and sizes.

BackSmart® Push Handles

Allow caregivers to position their elbows at an ergonomic 90-degree angle during transport and accommodate caregivers of virtually any height.

Optional Leg Supports

Are permanently attached to your Prime TC Transport Chair for comfort and stability. Easily stow away when not in use.

Electronics work to keep patients safe and all “features are designed to work. The Prime TC Transport Chair is designed to help reduce the risk of adverse events like patient falls and infection, while enhancing the patient experience, all in an effort to improve your reimbursements. The Prime TC Transport Chair continues Stryker’s legacy of quality and innovation, which is backed by an unprecedented 3-year warranty. To further protect your investment, consider a ProCare® Agreement that will help ensure your fleet is always running at optimal performance.
