Personalized fall prevention

\$32,215

A fall in the hospital can cost up to \$32,215 per injury.²

Nearly 1,000,000

patients in the United States experience a fall while being treated in the hospital.¹

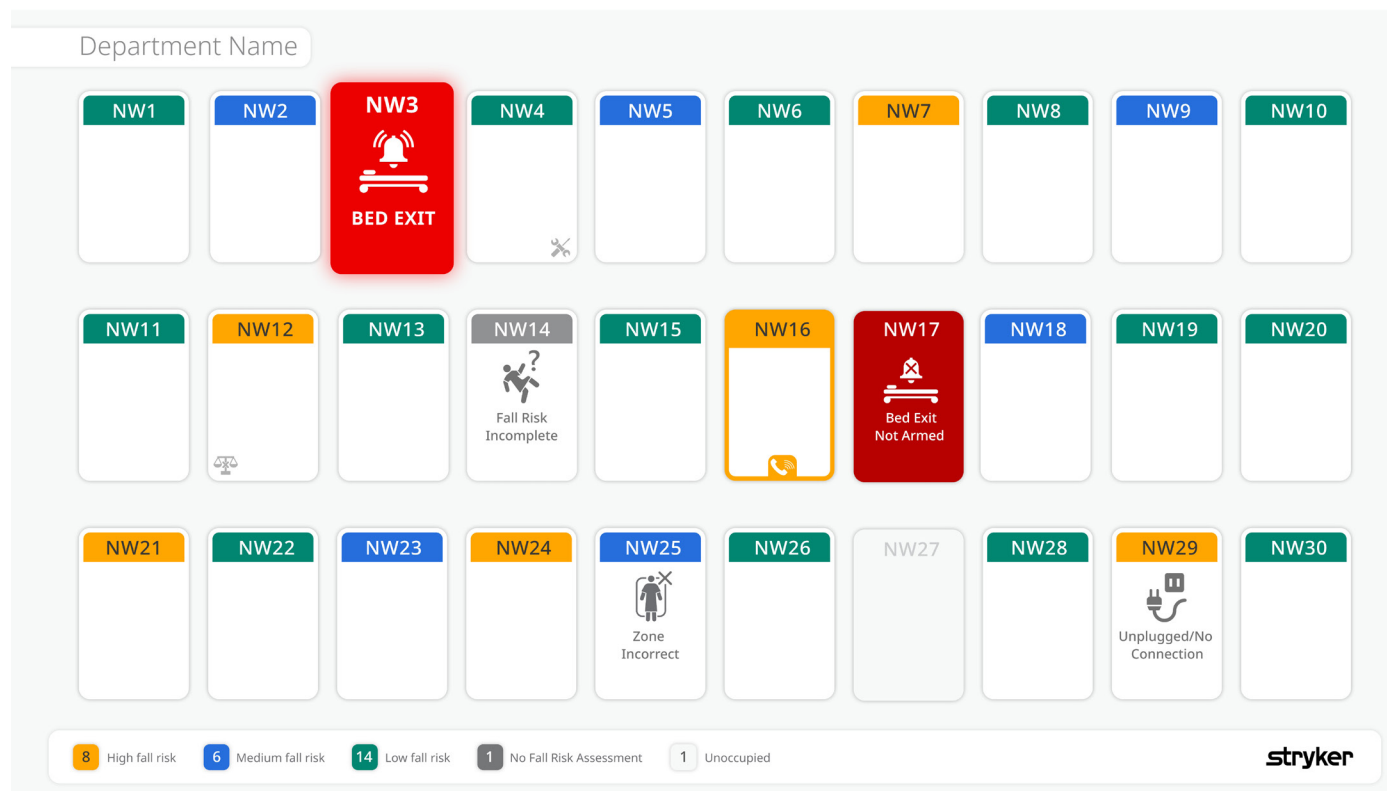

Advanced fall prevention to help drive better outcomes

We know keeping patients safe is your #1 responsibility. As a trusted partner in fall prevention, we're focused on developing innovations that can help reduce the risk of falls and injuries from falls.

Introducing Vision

Vision is a patient-centric clinical dashboard that gives caregivers increased visibility to stretcher compliance, falls protocols and bed exit alarm activity. It takes a patient's fall risk score from the EHR* and associates it with appropriate protocols to help provide a safer patient experience and an easier workflow for caregivers.

*No PHI information is transmitted.

It's all about the patient

Each patient's fall risk score is different and can change throughout his or her hospital stay. That's why Vision's dynamic and personalized fall prevention monitoring is so critical. Featuring configurable rules for safe stretcher protocol compliance, Vision displays near real-time, active changes based on a patient's fall-risk – allowing you to provide enhanced care as a patient's fall risk increases or decreases.

Wireless stretcher notifications

Vision monitors data sent from Prime Connect when stretcher protocols aren't being met (e.g., bed exit not armed, bed exit alarming and zone incorrect). Vision will also display if the stretcher is unplugged or disconnected, no fall risk score has been entered into the EHR, nurse call has been activated in a room, maintenance errors occur and if no weight has been entered in the EHR.

Safe stretcher monitoring

Hospital-specific safe stretcher protocol compliance automatically adjusts as the patient's EHR fall risk status changes.

Customizable display

Customize colors, icons, notifications and text based on hospital preference.

Color coded tiles

Enabling easy recognition of fall risk status.

Customer Support Services

Technical Support

Our Technical Support comprises a team of professionals available to help with your product needs. Contact via phone at 1 800 STRYKER or email at medicaltechnicalsupport@stryker.com.

Stryker's ProCare Services

Every day, you count on your medical equipment to perform at its best. With ProCare Services, our people help to ensure your equipment is ready to perform when it's needed and make it easier to get the most from your investment. When an issue arises, we promise that we'll work to solve it — performing repairs quickly and correctly in accordance with the terms of your service agreement.

ProCare isn't just a service program. ProCare is a partnership you can count on to give you one less thing to worry about, and one more reason to feel confident you're doing all you can for your clinicians, staff and patients.

All ProCare agreements provide:

- Stryker-authorized service representative
- Stryker-direct factory parts
- Two-hour callback response time
- Fixed service costs up front
- Increased uptime
- 24-72 hour equipment turnaround time**

**Based on the provisions of the Service Agreement and the location of the product.

Flex Financial Program

Our financial programs provide a range of smart alternatives designed to fit your organization's needs. We offer flexibility beyond a cash purchase with payment structures that can be customized to meet budgetary needs and help to build long-term financial stability. Contact your account manager for more information.
