SpineJack® Webinar Series **IVS instructional course**

Thursday February 25th 2021, 18:00-19:30 CET

Thank you for joining us today, this meeting will be an interactive discussion and debate designed to challenge accepted and future concepts and practices.

Faculty:

PD Dr. Gianluca Maestretti
Orthopedic Surgeon
Switzerland

Prof. David Noriega
Orthopedic Surgeon
Spain

Delegates profile:

PD Dr. Gianluca Maestretti, Orthopedic Surgeon, practices at the HFR– Hôpital Cantonal in Fribourg (Switzerland). He was previously working with Vexim and played a key role in the development of the SpineJack® concept. Years after years Dr. Maestretti has been involved in the different clinical studies run by Stryker and has become a unquestionable expert in the treatment of vertebral compression fractures.

Prof. David Noriega, Orthopedic Surgeon, is based in the University Hospital of Valladolid (Spain). He was one of the first Faculty involved in the development of SpineJack® and has been using this device for now more than 10 years. His expertise in traumatic, osteoporotic and tumoral cases with a long term follow up allows him to share with any new user all his tips & tricks and treat each new patient case with the most appropriate and conducted with the other members of the committee several clinical studies to prove the safety, the efficiency and the superiority of our IVS portfolio in the treatment of the vertebral compression fractures.

A surgeon must always rely on his or her own professional clinical judgment when deciding whether to use a particular product when treating a particular patient. Stryker does not dispense medical advice and recommends that surgeons be trained in the use of any particular product before using it in surgery. The information presented is intended to demonstrate the breadth of Stryker product offerings.

A surgeon must always refer to the package insert, product label and/or instructions for use before using any Stryker product. Products may not be available in all markets because product availability is subject to the regulatory and/or medical practices in individual markets.

Please contact your Stryker representative if you have questions about the availability of Stryker products in your area.
