

Exeter Online Lecture Series

Current Concepts of Cementing

- May 22** **Anatomical Restoration in Total Hip Arthroplasty**
- June 5** **Practical Tips and Tricks of Cementing a Exeter Stem**
- June 19** **Fractured Neck of Femur and The Use of Cement in Revision**
- July 3** **Managing Bone Defects using Impaction Grafting Techniques**

Join us live and online for our first Stryker's APAC Exeter Online Lecture Series! We will focus on the current concepts of cementing, and various case sharing across Asia Pacific.

Registration information on the next page. For enquiries, please contact APACMedEd@stryker.com

Prof Ross Crawford
Queensland University of Technology
Australia

Dr Hwa Sen Chua
Pantai Hospital Penang
Malaysia

Prof Xinzhan Mao
The Second Xiangya Hospital
China

Dr Wan Yiu Shen
Queen Elizabeth Hospital
Hong Kong

Dr Kelvin Tan
Tan Tock Seng Hospital
Singapore

Exeter Online Lecture Series

Current Concepts of Cementing

22 May 2020 18:00 – 19:00 (GMT+8)

Anatomical Restoration in Total Hip Arthroplasty

- Review the history and development of Exeter stem
- Discuss the design rational of collarless polished double-tapered Exeter stem and techniques to restore optimal offset and leg length

18:00 – 18:02	Welcome	Mr Siu Yan Mak
18:01 – 18:20	Exeter Timeline Review	Prof Ross Crawford
18:20 – 18:40	Stem Design and Anatomical Restoration in THA	Dr Kelvin Tan
18:40 – 18:50	Case Sharing and Experience in Singapore	Dr Kelvin Tan
18:50 – 19:00	Q&A	

Click to Register Now

5 June 2020 18:00 – 19:30 (GMT+8)

Practical Tips and Tricks of Cementing a Exeter Stem

- Understand how bone cement interact with polished Exeter stem
- Demonstrate how to prepare femoral canal, pressurise bone cement and insert stem

18:00 – 18:02	Welcome	Mr Siu Yan Mak
18:02 – 18:15	Everything You Need to Know about Bone Cement	Prof Ross Crawford
18:15 – 18:30	Cementing Techniques	Prof Ross Crawford
18:30 – 19:10	Live Workshop Demo	Dr Wan Yiu Shen
19:10 – 19:30	Q&A	

Click to Register Now

19 June 2020 18:00 – 19:00 (GMT+8)

Fractured Neck of Femur and The Use of Cement in Revision

- Review the importance of using cemented stem to treat fractured neck of femur
- Share tips and tricks of handling bone cement in revision cases

18:00 – 18:02	Welcome	Mr Siu Yan Mak
18:02 – 18:20	Fractured Neck of Femur and Cement Safety	Prof Ross Crawford
18:20 – 18:40	Cement in Cement Technique	Dr Hwa Sen Chua
18:40 – 18:50	Case Sharing and Experience in Malaysia	Dr Hwa Sen Chua
18:50 – 19:00	Q&A	

Click to Register Now

3 July 2020 18:00 – 19:00 (GMT+8)

Managing Bone Defects using Impaction Grafting Techniques

- Understand how to use impaction grafting technique to deal with severe acetabular and femoral bone defects
- Select the right rim and femoral meshes to reconstruct anatomy

18:00 – 18:02	Welcome	Mr Siu Yan Mak
18:02 – 18:20	Impaction Grafting Technique in Acetabulum	Prof Ross Crawford
18:20 – 18:40	Impaction Grafting Technique in Femur	Prof Xinzhan Mao
18:40 – 18:50	Case Sharing and Experience in China	Prof Xinzhan Mao
18:50 – 19:00	Q&A
