Rady Children's Hospital
San Diego, CA

Firoz Miyanji, MD, FRCS
University of British Columbia
Vancouver, BC

Laurel C Blakemore, MD CEO
Pediatric Specialists of Virginia

Stryker does not offer any products that support Vertebral Body Tethering. FDA has approved a humanitarian device exemption (HDE) for a Vertebral Body Tethering System (see H190005), but it is not offered by Stryker.

A surgeon must always rely on his or her own professional clinical judgment when deciding whether to use a particular product when treating a particular patient. Stryker does not dispense medical advice and recommends that surgeons be trained in the use of any particular product before using it in surgery.

The information presented is intended to demonstrate the breadth of Stryker product offerings. A surgeon must always refer to the package insert, product label and/or instructions for use before using any Stryker product. Products may not be available in all markets because product availability is subject to the regulatory and/or medical practices in individual markets. Please contact your Stryker representative if you have questions about the availability of Stryker products in your area.

Stryker Corporation or its affiliates own, use, or have applied for the following trademarks or service marks: Stryker, Xia. All other trademarks are trademarks of their respective owners or holders.
