INDICATIONS FOR USE: LIFEPAK CR® Plus and LIFEPAK EXPRESS® AEDs are indicated for use on patients in cardiac arrest. Patient must be unresponsive (unconscious), not breathing normally, and showing no signs of circulation (for example, no pulse, no coughing, or no movement). LIFEPAK AEDs are intended for use by personnel who have been trained in their operation. Users should have received training in basic life support/AED, advanced life support or a physician-authorized emergency medical response training program. The AEDs may be used with QUIK-PAK™ defibrillation pads only on adults and children ≥ 8 years old or > 55 lbs (25 kg). The AEDs may be used on children < 8 years old or < 55 lbs (25 kg) with Infant/Child Reduced Energy Defibrillation Electrodes. AEDs may be used with CHARGE-PAK™ battery charger. **CONTRAINDICATIONS:** Do not use AED when victim is conscious and responsive. **IMPORTANT SAFETY INFORMATION** is available at <https://www.strykeremergencycare.com/disclosure-and-safety-information/> or 800.442.1142. Operating Instructions provide complete indications, contraindications, warnings, cautions, potential adverse events, safety and effectiveness data, instructions for use and other important information. U.S. Federal law restricts this device to sale by or on the order of a physician.
