LIFEPAK® 15 monitor/defibrillator service

Stryker has been notified by our global parts providers that some components used on certain LIFEPAK 15 monitor/defibrillator models (Part Numbers beginning with V15-2) are no longer available in the market, which limits the service support available for this product. Service on the LIFEPAK 15 with Part Numbers beginning with v15-5 or v15-7 are unaffected.

Stryker will continue to offer service support for this subset of the LIFEPAK 15 as follows:

- All service parts with available inventory can be purchased by our end users
- Transactional service (time and material) is available for non-contract customers
 - If a component has failed on your device, your local Sales Representative should be contacted for support.
- Contractual service
 - Stryker will continue to offer contractual service on a yearly basis only.
 - Preventive maintenance will continue to be done on devices less than eight (8) years old. After this point, we will cease to conduct preventative maintenance and shift to device inspections.
 - If a component fails on your device, please contact your local Sales Representative for support. A pro-rated credit for any pre-paid service will be provided should a unit become non-serviceable due to part availability.

It is important to note that the LIFEPAK 15 has an expected life of eight (8) years from the date of manufacture. If you are uncertain of the manufacture date of your products, please contact your local Sales Representative for a full fleet assessment.

Stryker does not contract nor provide service parts to any third-party service providers, but instead has a dedicated ProCare Service team who is the only approved service provider for our products.

As such, we cannot guarantee the safety and efficacy of any device that is repaired by a third-party service agency.

We thank you for your business and continued partnership. We are committed to providing high-quality, clinically supported products so that you can be confident in the care you are providing to your communities. Please contact your local Stryker sales representative if you have additional questions or to discuss trade-up and flexible financing options for our current LIFEPAK 15 device.
