How RSV works

Stryker's training credit system

Stryker sells packages of five, 10 and individual credits. One credit per student is required and training credits do not expire.

Once credits are purchased, your AED Program Administrator will set up the training event in LIFELINKcentral. Our training partner will reach out to the designated Training Contact to start the scheduling process for in-person training. For virtual training, links will be emailed to students within 48 hours.

For instructor-led classes, there is a 48-hour cancellation policy. For cancellations within 48 hours, five training credits will be charged.

Contact your Stryker account manager for more information.

Emergency Care

*Actual class time dependent on class size and other variables.
