Signature Portfolio
Elite Attachments

Confidence
extended

Longer, concave design for improved line of sight and fine-edge knurling for better grip and more options for positioning your hand

Snap-Connect for easy and consistent assembly/disassembly

Refined attachment design for improved balance and maneuverability

Easily identifiable marks help surgeon and staff adjust exposure to desired level

Patented multi-notch telescoping cutting tools enable convenient customization of exposure setting for specific user preferences and applications

- Adjustable up to five exposure levels (up to 10mm)
- Compatible with any Elite attachment
- 5:1 inventory reduction
- Streamlines set up and packaging waste
- Reduces opening multiple cutting accessories for different attachments

Carbide round burs have patented multi-flute design

Elite Attachments

Efficient. Extensive. Essential.

When you're in the O.R., having access to just the right tools at your fingertips is essential. Our Elite attachments put versatility and functionality in your hands with a natural balance and grip that enhances your feel and maneuverability. Paired with our extensive selection of industry-unique telescoping cutting accessories, the Elite line gives you the ability to expand your reach by adjusting up to five exposure levels without the need to change your attachment or bur. Streamlining both ease of use and your inventory items of up to 5:1, Elite delivers efficiency all around.

New! Irrigation Sleeves

- Deliver precise irrigation by simply sliding over your 7cm or 12-20cm Elite attachment for a complete solution
- Low profile with ergonomic design facilitates site access and visibility
- Sterile, disposable and compatible with CORE Console disposable irrigation cassettes

New! Elite LX Cutting Accessories

Our recent addition of 39 new Elite Cutting Accessories expands our collection of burs to more than 300 styles and options, allowing you to customize with confidence. Among them are nine carbide accessories — including the carbide matchhead — that reduce the chatter level over steel by 30% for added precision and control.¹

Represented below are the new style types.

3 precision acorn;
dimensions 5.0 – 7.5mm

3 router;
dimensions 1.5 – 2.3mm

2 tool steel match head;
dimensions 1.7 – 2.2mm

2 diamond match head;
dimensions 1.7 – 2.2mm

12 diamond;
dimensions 0.70 – 6.0mm

10 round;
dimensions 0.70 – 7.5mm

1 carbide match head;
dimension 3.0mm

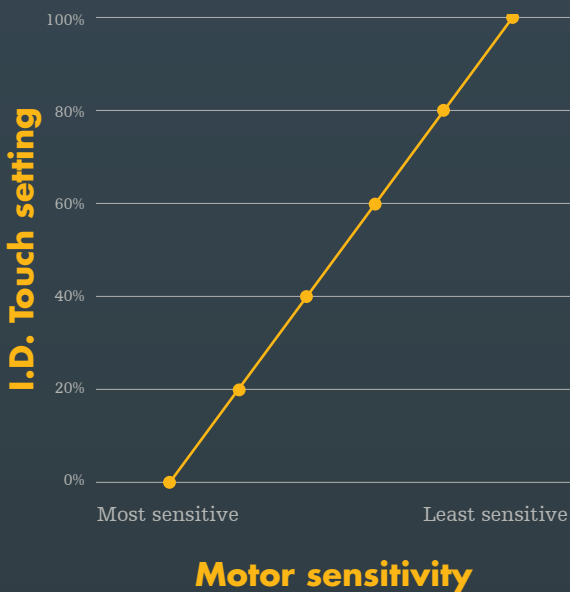

8 carbide round;
dimensions 2.0 – 6.0mm

I.D. Touch Software: Define your style

When used with either the π drive or π drive+ motors, your cutting accessories can be optimized even further using I.D. Touch Software on the CORE 2 Console instrument driver. This industry exclusive software enables you to adjust torque from 0-100% to customize how your electric drill responds when pressure is applied during use — from low to high sensitivity — redefining performance to your liking. Your NSE sales representative can guide you through the options and save the performance and feel that's right for you in user preferences.
