- Surgeon headlights and other accessories in support of NSE specialties

'Surgeon names and preferences are for demonstration purposes only to help depict the range of performance customization possible.

The pneumatic power and feel you need

With the customization you want

Part of the Signature Portfolio, our latest Maestro Air™ motor reflects multiple refinements aimed at increasing its reliability and your overall experience. Rated up to 150 psi, today's motor provides the speed, power and torque to handle the most taxing drill scenarios, coupled with the intuitive feel and feedback you like from a pneumatic system. With a wealth of choices to suit your specialty and preferences, you can create a drill portfolio reflective of your own signature style.

Power and reliability

- Pneumatic motor rated up to 150 psi
- 20% more torque than previous model
- 25% more power in watts
- Speeds up to 75K RPMs

Customization

- Motors with or without handswitch
- Four foot pedal options
- The industry's most comprehensive array of attachments
- Industry-unique cutting accessories

Ergonomic freedom of motion

- 20% overall weight reduction from past Maestro motors
- Refined attachment design for improved balance and maneuverability
- Improved swivel at hose, increasing handpiece freedom of movement
- Lighter, more flexible hose with low-friction coating to reduce catching on surgical fabric and drapes, or collection of dust and debris

Compatible with the most expansive array of attachments and cutting accessories including:

- Multi-notch telescoping accessories (up to 10mm); reduces inventory up to 5:1
- 2Flute head design

Color coding instantly identifies matching attachments and cutting accessories

Alignment dots and Snap-Connect for easy and consistent assembly/disassembly

Dr. Lin

Custom Preferences¹

- Maestro Air
- Exhausting foot pedal
- 130 psi
- Irrigation rate 25%

Foot pedal options

Exhausting: Instantly vents pressurized gas at point of foot pedal, when foot is removed

Non-exhausting: Vents pressurized gas through motor system

Universal: Functions three ways in exhausting, non-exhausting and handswitch modes

Wide/heavy: For those who prefer wide-format foot controls
