

Sage 2% Chlorhexidine Gluconate Cloth

Environmental data specification sheet

This document serves as a substitute for the Safety Data Sheet for US 2% CHG Cloths

2% Chlorhexidine Gluconate (CHG) is a drug product under FDA regulations¹; therefore, a Safety Data Sheet is not required per OSHA. Please accept this Environmental data specifications sheet as a substitute.

Product use:

The 2% CHG Pre-Op Prep products are topical, over-the-counter (OTC) human drug products, which are generally recognized as safe and effective, intended for use as pre-operative skin preparations. 2% CHG cloths help reduce bacteria that can potentially cause skin infections. Please follow all labeled instructions.
