

SportSuite Vision

Break the physical limits of the OR.

The next evolution of the operating room is here.

A customized surgical cockpit built around you.

-  **Surgical insights at your fingertips**
-  **HipCheck**
-  **HipMap**
-  **Arthroscopy video**
-  **CT scan**

A spatial computing operating environment on Apple Vision Pro.

SportSuite Vision allows arthroscopy surgeons to maintain visibility of their natural OR environment, using video see-through technology, while being able to access, display, and position digital tools such as the arthroscope feed, HipCheck, HipMap, and CT scans.^{1,3}

Features and benefits

- Provides access to relevant clinical data (such as HipMap reports, HipCheck, and CT scans) within the sterile field to support clinical decision making.¹
- Allows surgeons to customize the orientation and placement of their virtual arthroscopy video screen, HipCheck software feed, HipMap report, and CT scan without physical restrictions.^{1,2,3}
- The customizable virtual surgical cockpit reduces reliance on traditional monitors and supports improved ergonomic alignment.¹
