VersiTILT

The button system that raises the standard.

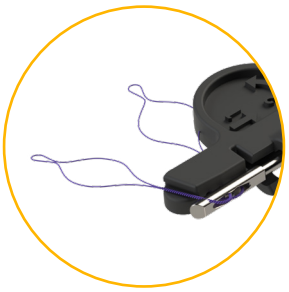

Redefining the cortical button system for today's OR. Engineered to simplify the procedure, it combines pre-threaded suture tabs, a pre-loaded, tilted button with retention suture, and a convenient tendon graft sizer built into the device handle to eliminate the need for reusable instruments.

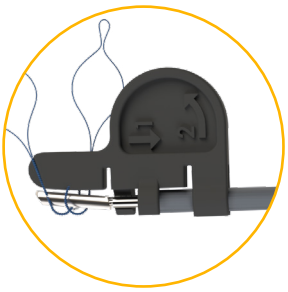

Reliable button flip to ensure secure fixation.*[1]

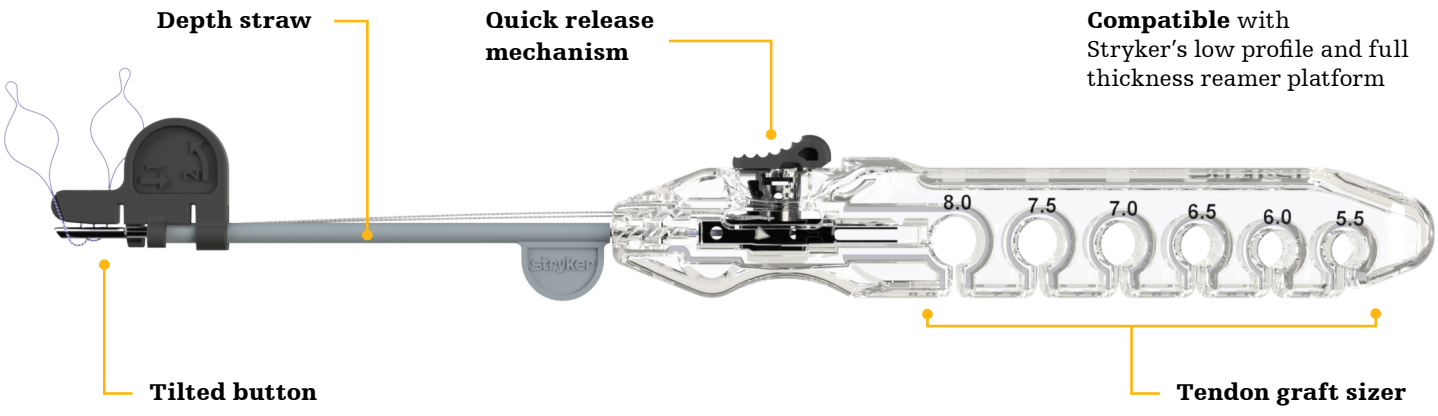

Pre-threaded suture tabs designed to simplify suture threading.

Pre-loaded, tilted button and retention suture streamline the button flip process.

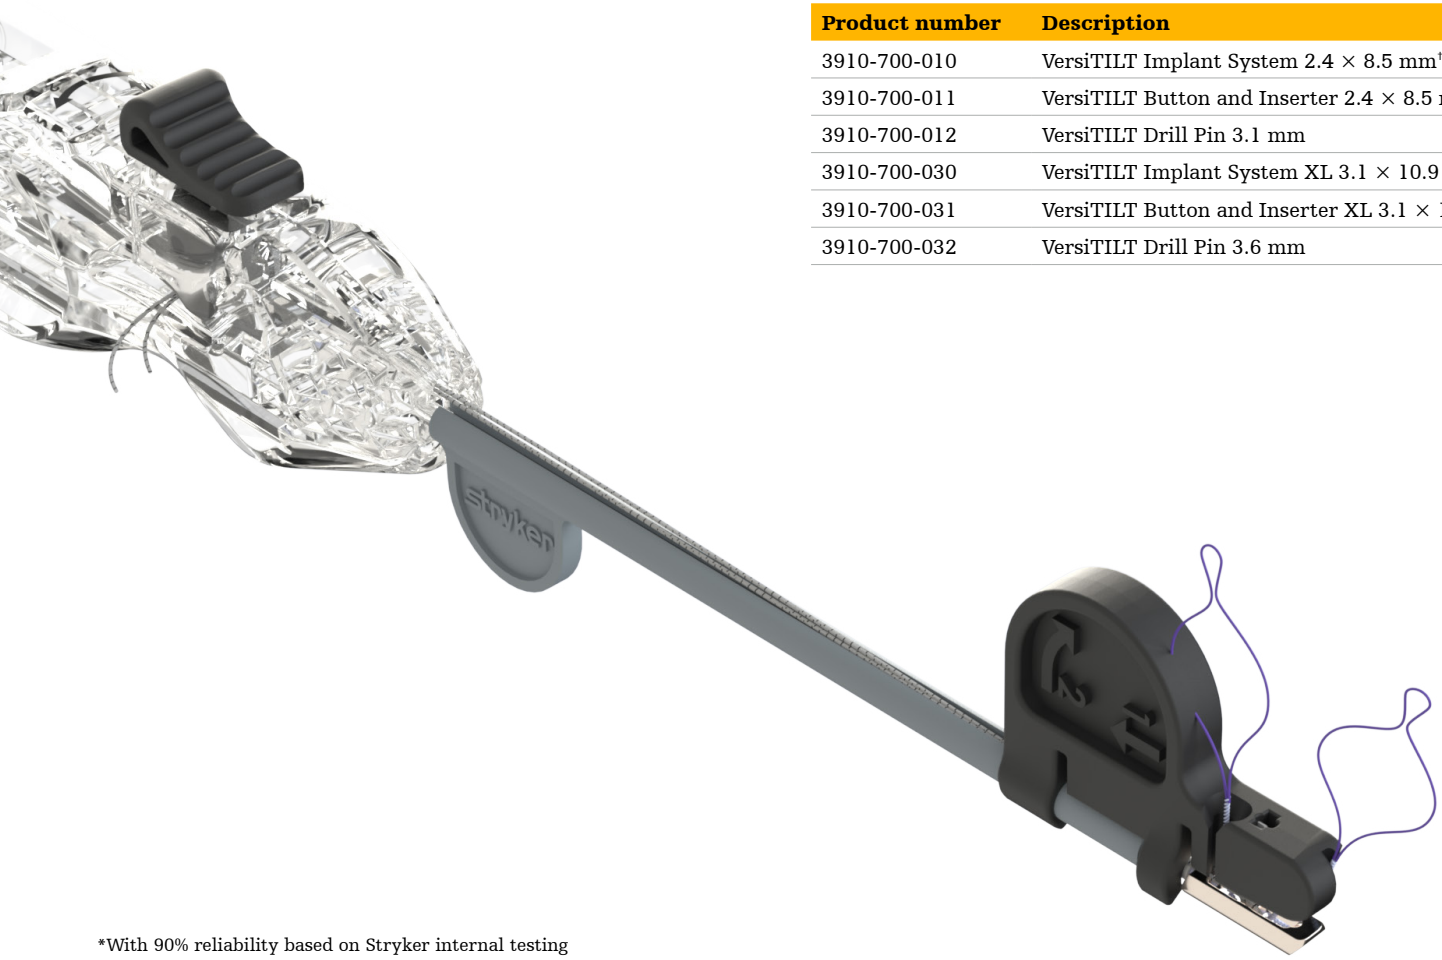

Available in two sizes:

Standard: 2.4 x 8.5 mm
XL: 3.1 x 10.9 mm
