

# Introducing Cactus® PharmaLock® OR Kit

Securely captures pharmaceutical waste

Stryker is proud to introduce the **new** PharmaLock OR Kit! It provides the same great ability to render unused pharmaceutical waste as non-retrievable and unusable as the original Cactus Smart Sink® System with a more compact housing! The PharmaLock OR Kit is the perfect size for mounting to anesthesia carts, near red sharps bins, sinks, or anywhere a medication disposal option is needed.

## Features

- Compact unit (9.25"W x 8.5"H x 7.5"D)
- Includes bio-ex antimicrobial coating
- Accepts Smart Sink Liquid Cartridges
- Holds approximately 3.0L of liquid waste
- Incorporates backsplash shield for injecting liquids
- Requires no power source
- Includes security lock and key

**For questions or to place your order today, please contact your Surgical Safety representative or call (800) 253 3210.**

# Cactus PharmaLock OR Kit

## Captures raw pharmaceutical waste

- Stryker's PharmaLock OR Kit provides an alternative to disposing controlled substance waste in a sink, toilet, red sharps container or waste bin.

## Automatically renders waste non-retrievable and unusable

- The Pharma Lock OR Kit helps bring facilities's pharmaceutical waste procedures into compliance by simplifying the process.
- The liquid cartridge absorbs discarded syrups, liquids and other pharmaceutical related fluid waste so it cannot be retrieved.
- It ensures discarded medications do not end up in the wrong hands or negatively impact the environment.

## Securely stores pharmaceutical waste

- The Pharma Lock OR System securely mounts to an anesthesia cart or wall, locking it into place. Unit is accessed only with security key.

## Assures proper disposal per regulatory guidelines

- The Pharma Lock OR Kit containers are clearly marked and identified to ensure proper disposal per regulatory guidelines.
- Securely stores pharmaceutical waste until ready for disposal by authorized personnel, it facilitates proper disposal per regulatory guidelines.
- Important: Continue to follow the recommended guidelines for proper pharmaceutical waste disposal required by your facility.

## It's easy to use and easy to install

- Installation is quick and easy! No complicated buttons or instructions required.
- Position anywhere: mounting bracket locks in place so it can be securely fastened to a wall or mobile cart.
- Pharmaceutical waste is automatically rendered to an unusable and non-retrievable state, no shaking required.
