

Pro-Dense LoVisc™

Injectable Regenerative Graft

Pro-Dense Injectable Regenerative Graft
in a lower viscosity form

Pro-Dense LoVisc

Injectable Regenerative Graft

Pro-Dense LoVisc is a resorbable, regenerative bone void filler that can be injected or digitally packed into open bone voids that are not intrinsic to the stability of the bony structure of the skeletal system to cure in situ.

These open bone voids may be the result of benign bone cysts and tumors in adults and pediatric patients 6 years and older, surgically created osseous defects or osseous defects created from traumatic injury to the bone.

Extended working time

Pro-Dense LoVisc supports filling with an uninterrupted bolus and adds flexibility to prep and application.

Easy injectability

Pro-Dense LoVisc allows for minimally invasive delivery of larger graft volumes and grants one-handed functionality.

Predictable bone regeneration

Pro-Dense LoVisc graft sets, is radiopaque, and regenerates stronger, denser new bone.¹

Ordering information

Product No.	Description
87SRLV05	Pro-Dense LoVisc Injectable Regenerative Graft 5cc
87SRLV10	Pro-Dense LoVisc Injectable Regenerative Graft 10cc
87SRLV20	Pro-Dense LoVisc Injectable Regenerative Graft 20cc

¹ All claims are based on a critically sized canine proximal humerus defect model. It is unknown how results from the canine model compare with clinical results in humans. Data on file at Stryker. The implant material used in this study has been shown to be equivalent to Pro-Dense LoVisc once the material has set.

This document is intended solely for the use of healthcare professionals. A surgeon must always rely on his or her own professional clinical judgment when deciding whether to use a particular product when treating a particular patient. We do not dispense medical advice and recommend that surgeons be trained in the use of any particular product before using it in surgery.

The information presented is intended to demonstrate the breadth of Stryker's product offerings. A surgeon must always refer to the package insert, product label and/or instructions for use, including the instructions for cleaning and sterilization (if applicable), before using any of Stryker's products. Products may not be available in all markets because product availability is subject to the regulatory and/or medical practices in individual markets. Please contact your representative if you have questions about the availability of Stryker's products in your area.
