

T2 Alpha™

Nailing redefined.

Comprehensive instrument platform

T2 Alpha

Nailing redefined.

T2 Alpha is designed to improve the surgical experience with streamlined instrument functionality workflow. With guided distal targeting devices for both femur and tibia, T2 Alpha aims to provide surgeons with a reproducible and consistent procedure for distal screw locking. A core basic instrument set features intuitive instrument handling and modularity.

- ▶ Dedicated distal targeting devices for femur and tibia
 - Potential to reduce total operative time and fluoroscopy exposure¹
- ▶ Improved instrument continuity and functionality for a streamliner operative workflow
 - Robust self-retaining screwdriver
 - Versatile guide-wire inserter with single-handed capability
 - Universal modular interfaces for quick-lock assembly
